

Air 1, heard on an FM transaltor in many parts of the US is an extremely important way of life for many. I have seen this radio station reach out to the homeless and show them a better way of life. I have known of their ministry reaching out to many people on the verge of suicide and litteraly save their lives. To me Air 1 is something I can put on my radio and know I will find peace in such a hectic world. If it is forced to go off the air because of this new campaign I know it will take away maybe the only posotive part of many peoples days. The public needs something that encourges them to go out and do good in their communities, to make their towns and cities a better place to live. If Air 1 wasn't such a great organization why would it still be going strong after all these years, after all it is a listener supported radio station.
